

Trimester Program

On the Interaction of Representation Theory with Geometry and Combinatorics

Winter School Topics in Representation Theory

January 10 – 14, 2011

Six introductory lecture series will present current developments and different points of view in representation theory. Interactions within representation theory will be discussed as well as connections with other areas of mathematics.

Speakers:

J. Brundan (Oregon)

S. Fomin (Michigan)

I. Gordon (Edinburgh)

B. Leclerc (Caen)

A. Ram (Melbourne)

C. Ringel (Bielefeld/Shanghai)

Call for participation: If you are interested contact the Director of HIM, Prof. Dr. Matthias Kreck (kreck@him.uni-bonn.de). HIM finances the stay at the Institute and travel costs if no other sources are available. Deadline for applications is December 15, 2010.
